

cutexpression::cutexpression

cutexpression::~~cutexpression

stack\_qstring::clear

```
graph LR; A[cutexpression::cutexpression] --> C[stack_qstring::clear]; B[cutexpression::~~cutexpression] --> C;
```

The diagram illustrates a control flow or dependency relationship. On the left, two white rectangular boxes are stacked vertically. The top box contains the text 'cutexpression::cutexpression' and the bottom box contains 'cutexpression::~~cutexpression'. On the right, there is a gray rectangular box containing the text 'stack\_qstring::clear'. Two blue arrows originate from the right side of the two white boxes and point towards the left side of the gray box, indicating that both source functions lead to the target function.
